

Reliable Internet Connectivity on a robust IP network

Internet Connect Service from BCE Nexxia

To succeed in today's rapidly evolving business environment, organizations need reliable, flexible and cost-effective, high-speed Internet services.

Leverage the largest Internet user-base in Canada by partnering with BCE Nexxia. Internet Connect Service (ICS) from BCE Nexxia, a Bell Canada company, provides a full range of connectivity options and access speeds designed for high traffic volume.

Solution

ICS offers various transit services tailored to meet your needs as well as those of your customers:

- Transit service gives you access to all of our routes, including those provided through our peering partners. We also offer off-net routes through our top-tier transit partners.
- On-net service gives you access to Bell's network and to routes offered by our peering partners.
- Settlement-based peering provides you with access to the network only. This is ideal for providers who only need to access Bell's customer base.

Features

- Wide choice of access speeds, from 1 Mbps to 10 Gbps
- Reach in most Canadian cities to meet you and colocation throughout Canada and the U.S.
- Direct access to the largest user base in Canada.
- Help Desk staffed by a world class Internet engineering and network team and 24/7 network surveillance
- Enhanced self-serve, online portal with access to monthly usage reports and network metrics such as latency, jitter and bandwidth use
- 99.99 network reliability
- Less than 75 ms (Average monthly latency for round trip)
- Less than 1% IP core packet loss

Benefits

- Direct access to the largest user base in Canada
- Over 40 Points of Presence (POP) in Canada and the U.S.
- Extensive peering and transit relationships with recognized U.S. and global Tier 1 providers and content providers for effective traffic management
- Full network diversity with physically diverse fibre routes, backup POPs, redundant transport and switching equipment to eliminate single points of failure and bandwidth contention

About BCE Nexxia
